Essentials

WORK EXPERIENCE

Marketing Specialist, Annise Herbal

Nov 2021 – Nov 2023

Jakarta, Indonesia

- Created Instagram, TikTok, and e-commerce marketing materials to boost brand visibility and engagement.
- Conducted market research to identify target consumers, optimize interaction strategies, and enhance campaign outcomes.
- Collaborated with cross-functional teams to streamline project schedules and improve communication.
- Contributed to UI/UX design improvements, including logo design and branding enhancements, to align with client objectives.

Creative Designer (Freelance)

Oct 2020 – Nov 2023

Remote

- Created designs for logos, product labels, and marketing materials tailored to client specifications, focusing on user-centric aesthetics.
- Developed creative solutions and visual assets to enhance brand identities and marketing campaigns, ensuring alignment with user experience principles for better engagement.
- Conducted usability assessments and applied feedback to refine designs, ensuring they met both client goals and end-user needs.

VOLUNTEER EXPERIENCE

Web Designer, Karinya Counselling

Jun 2024 – Present

Melbourne, Australia

- Improved responsive website layouts for the counseling center using Squareup, enhancing navigation and user engagement to ensure a seamless browsing experience.
- Enhanced accessibility features by aligning designs with web design best practices, ensuring inclusivity for all users.
- Iteratively refined visual assets such as the logo, banner, and business card, while creating interactive content on Instagram to strengthen brand identity and user engagement.

ACADEMIC PROJECTS

Music Web Application

May 2024 – May 2024

Role: Front-End Developer

- Developed a dynamic music web application that retrieves and displays data from external music APIs, providing users with access to a vast library of songs and artists.
- Implemented features such as search functionality and music playback, enhancing user engagement and experience.

Avvai Tamil Palli – Capstone Project

Jul 2024 – Nov 2024

Role: UI/UX & Web Designer

- Designed responsive website layouts for the School Language Centre, improving user navigation and engagement.
- Developed wireframes and moodboards to establish a cohesive design concept before implementing the website in WordPress.
- Enhanced accessibility features, aligning with web design best practices such as clear fonts, good colour contrast, and proper layouts.

Restaurant Food Web Application

Oct 2024 – Nov 2024

Role: Full-Stack Developer

- Developed a dynamic web application for a restaurant, enabling users to browse menus, place orders, and manage reservations seamlessly.
- Implemented full CRUD (Create, Read, Update, Delete) functionality, allowing efficient management of menu items, customer orders, and reservation details.
- Integrated a user authentication system to ensure secure access for customers and administrative staff, enhancing data protection and user experience.
- Use GraphQL/Apollo for efficient data querying, optimizing performance and providing a flexible API for frontend integration.

Fashion Store Web Application

Oct 2024 – Nov 2024

Role: Full-Stack Developer

- Developed a comprehensive e-commerce platform for a fashion store, facilitating seamless online shopping experiences.
- Implemented full CRUD (Create, Read, Update, Delete) functionality, enabling efficient management of products, categories, and user information.
- Integrated an image upload feature, allowing administrators to add and manage product images effectively.
- Integrated Firebase services for user authentication and data management, utilizing Firestore as the primary database and Cloud Storage for handling product image uploads.

EDUCATION

- **Diploma of Information Technology (Front-End & Back-End Web Development)**
Holmesglen Institute, Melbourne, Australia | Feb 2024 – Nov 2024
- **Certificate IV in Information Technology (Web Development)**
Holmesglen Institute, Melbourne, Australia | Jul 2023 – Dec 2023
- **Bachelor of Business Administration (Social and Political Sciences)**
Padjadjaran University, Indonesia | 2018 – 2022

Dear [Recipient Name]:

I am writing to express my enthusiasm for the [Position Title] role at [Company Name], as advertised on [where you found the job posting]. With a double diploma in front-end and back-end web development and hands-on experience designing and building responsive web applications, I am excited about the opportunity to contribute to your team.

In my recent projects, I developed dynamic web applications showcasing full-stack capabilities. For instance, I created a fashion store web application, integrating Express.js for backend functionality and Firebase for authentication and image upload management. By implementing modern front-end tools like React.js and Vanilla Extract CSS, I ensured a responsive, engaging user experience. My dedication to accessible and efficient design also extends to volunteering for a counseling center, where I redesigned web layouts to enhance navigation and accessibility.

My academic background, combined with practical exposure to building real-world applications, has honed my skills in problem-solving, collaboration, and attention to detail. I am passionate about translating user needs into seamless and efficient solutions that align with organizational goals.

I am eager to bring my technical expertise and creative mindset to [Company Name], where I am confident I can contribute meaningfully to your development projects. I look forward to the possibility of discussing how my skills and experiences align with your team's needs. Thank you for considering my application.

Best regards,

Farah Shiba Tambunan
